## I Rule My World

You got nothing to say that matters  
you got nothing to say I want to hear  
every time it's the same old blabber  
let me make myself perfectly clear  
I rule my world  
I rule my world  
I rule my world  
I rule my world

gonna top off the highest mountain  
gonna live in my luxury  
if there's a chance well I plan to take it  
living your life is no mystery  
I rule my world  
I rule my world  
I rule my world  
I rule my world

you got nothing to say that matters  
you got nothing to say I want to hear  
every time it's the same old blabber  
let me make myself perfectly clear  
I rule my world  
I rule my world  
I rule my world  
I rule my world.
