Radiate

I want to radiate
I want to radiate
I want to radiate radiate this love on to you

I want to show you a place
a place right here in your heart
I want to take you where you never been before
I want to show you who you are

and I want to radiate
I want to radiate
I want to radiate-radiate this love on to you

we need to stop all this fighting
and come together as one
I know it sounds like an impossible dream
but without love the war is never won

and I want to radiate
I want to radiate
I want to radiate-radiate this love on to you

whoa-whoa
whoa-whoa

I want to radiate
I want to radiate
I want to radiate radiate this love on to you

whoa-whoa
whoa-whoa.
