This Is Planet Earth

This is planet earth
you are welcome to its birth planet earth planet earth
watch her grow changing shape
a few good men decide our fate on earth planet earth

bombs away and stories told
finding balance losing hold of her planet earth planet earth
at mornings rise shadows tall
once dressed in green her forest fall to earth planet earth

I am dangerous
this is planet earth
I am dangerous
goodbye planet earth

far above a view from space
wandering starships investigate the earth planet earth
violent creatures they must see
destroying mother natures ever plea for birth planet earth

I am dangerous
this is planet earth
I am dangerous
goodbye planet earth

this is planet earth
you are welcomed to it's birth planet earth
far above a view from space
wandering starships investigate the earth planet earth
violent creatures they must see
ignoring mother natures ever plea for birth planet earth

I am dangerous
this is planet earth
I am dangerous
goodbye planet earth.
